Great service. Too much admin.

Students love the service. But everything runs through WhatsApp and memory, so the admin grows with every order.

⌚ Today

Orders buried in chats

“Any update?” messages all day

Invoices typed by hand

Chasing payments one by one

Repairs tracked in your head

No clear view of what you earn

🌟 With the new system

Every chat and order in one inbox

Students track orders and repairs themselves

Invoices made for every order, automatically

Polite reminders go out on their own

Every repair tracked, start to finish

Sales, profit and what's owed at a glance

The result

More time for students. Nothing forgotten. Money in sooner.

Two parts. One system.

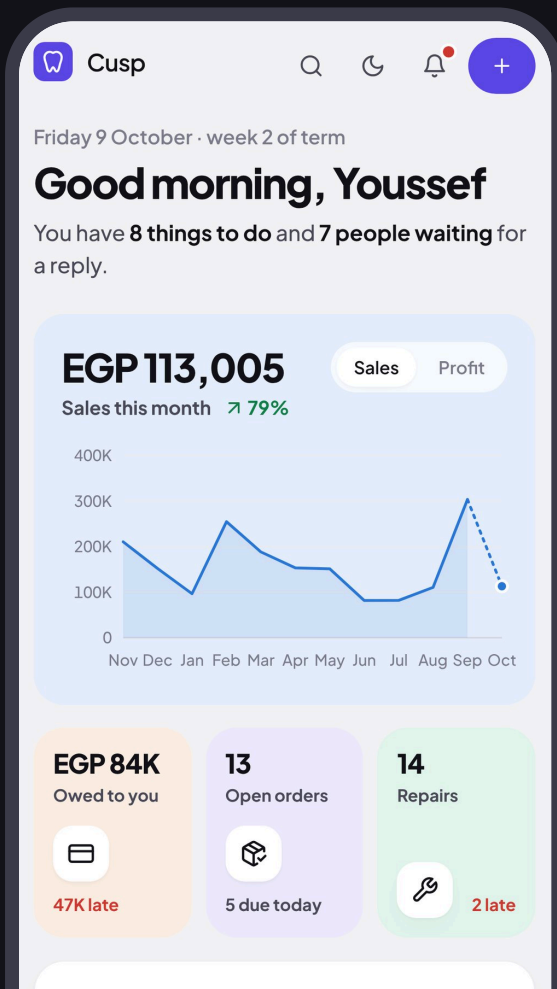

A control panel for you, and an online shop for students. An order placed in the shop lands straight in your panel.

Your control panel

For you, on your phone or laptop

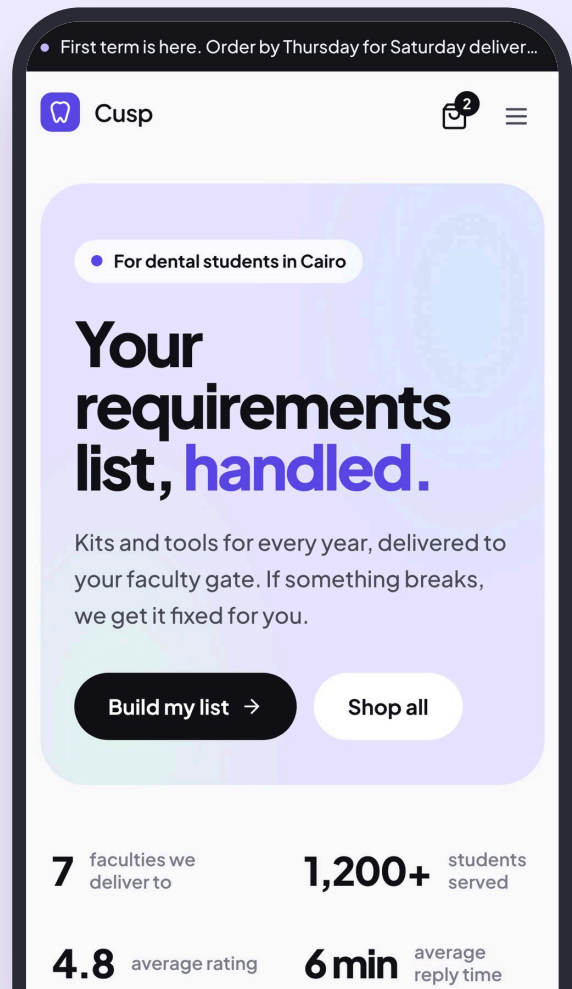

- ✓ See what needs you, first thing
- ✓ All chats in one inbox
- ✓ Orders, repairs and payments together
- ✓ Updates and reminders sent for you

Your online shop

For students, open 24/7

- ✓ Shop by year and university
- ✓ Tick off the requirements list
- ✓ Book a repair and track it
- ✓ Chat or ask for a call

WHAT IT SAVES

Almost a working day back, every week.

Most of the admin repeats on every order. The system does that part, so each order takes minutes instead of half an hour.

Your control panel

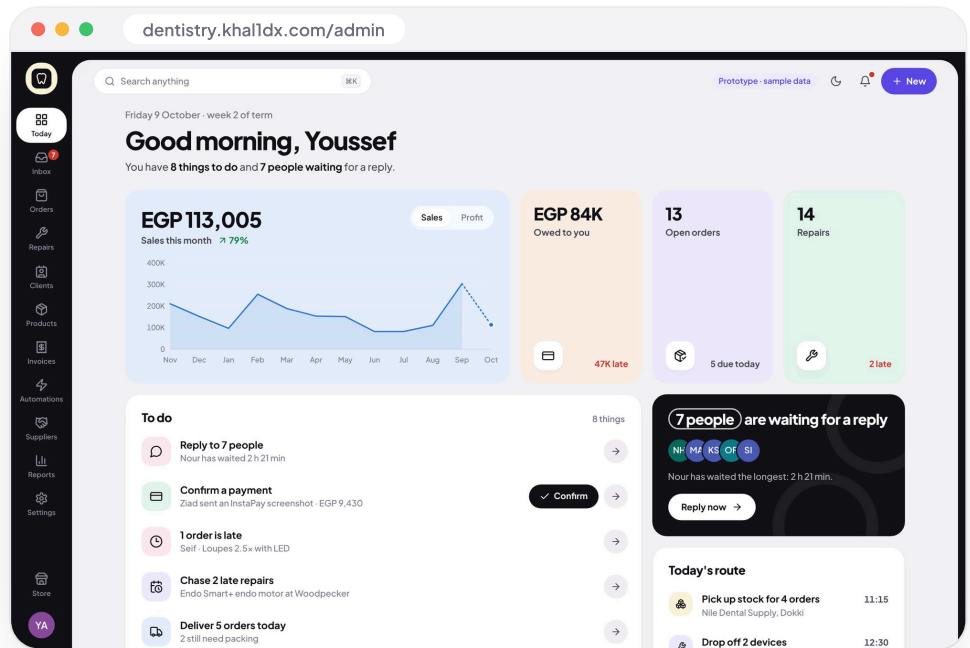

Everything you need, nothing you don't.

Morning screen

What needs you, first thing

Open it with your coffee and you know your day.

- ✓ Four numbers that matter
- ✓ A to-do list, most urgent first
- ✓ Today's pickups and deliveries in order

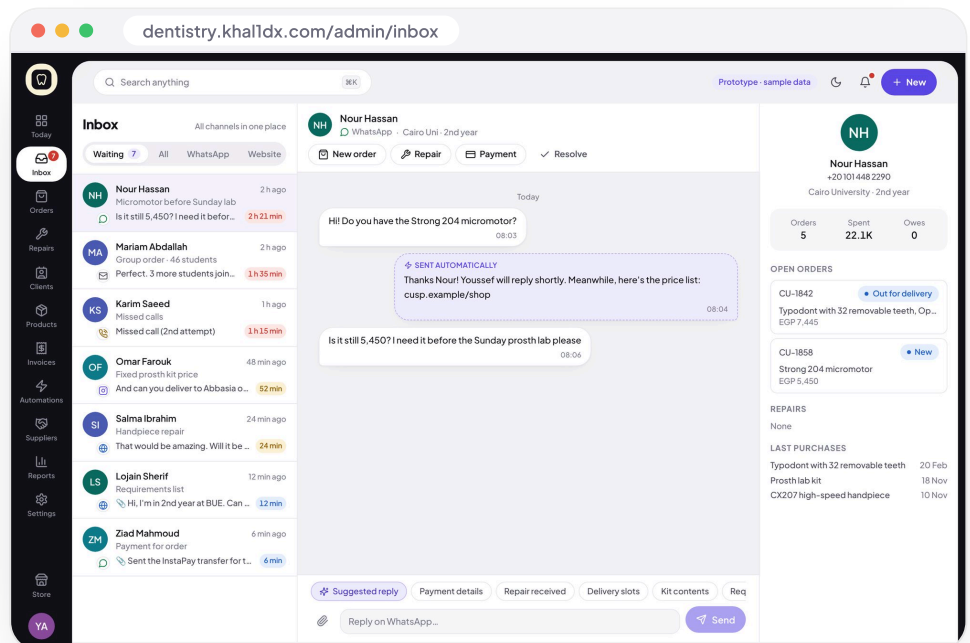

Inbox

Every chat in one place

WhatsApp, Instagram, website chat and calls together.

- ✓ See who has waited longest
- ✓ Suggested replies and saved answers
- ✓ Order, repair and payment buttons in the chat

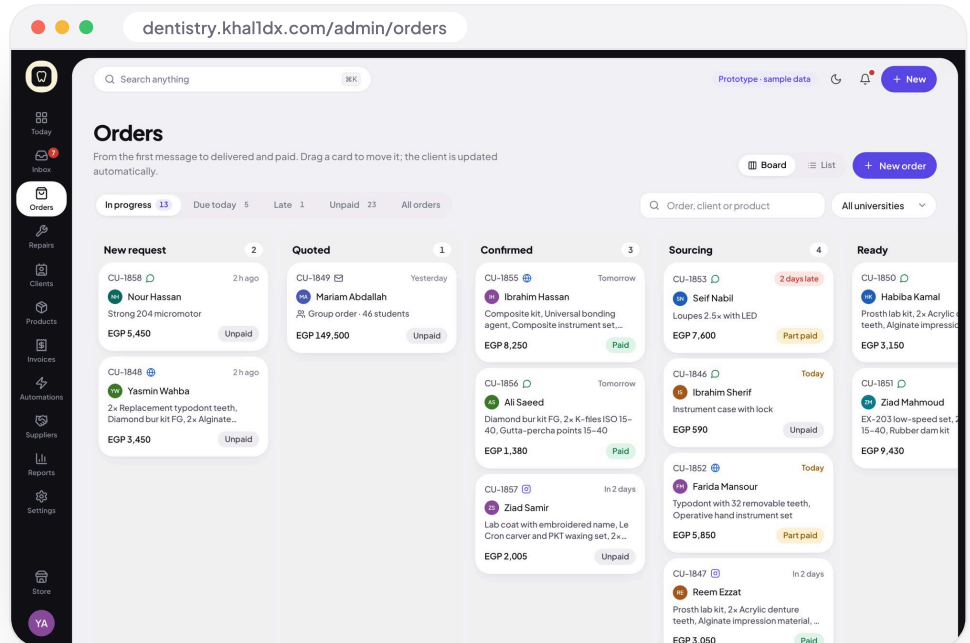

Orders

From message to delivered

Every order on one board, by stage.

- ✓ Drag a card to move it
- ✓ The student is updated automatically
- ✓ Late and unpaid orders stand out

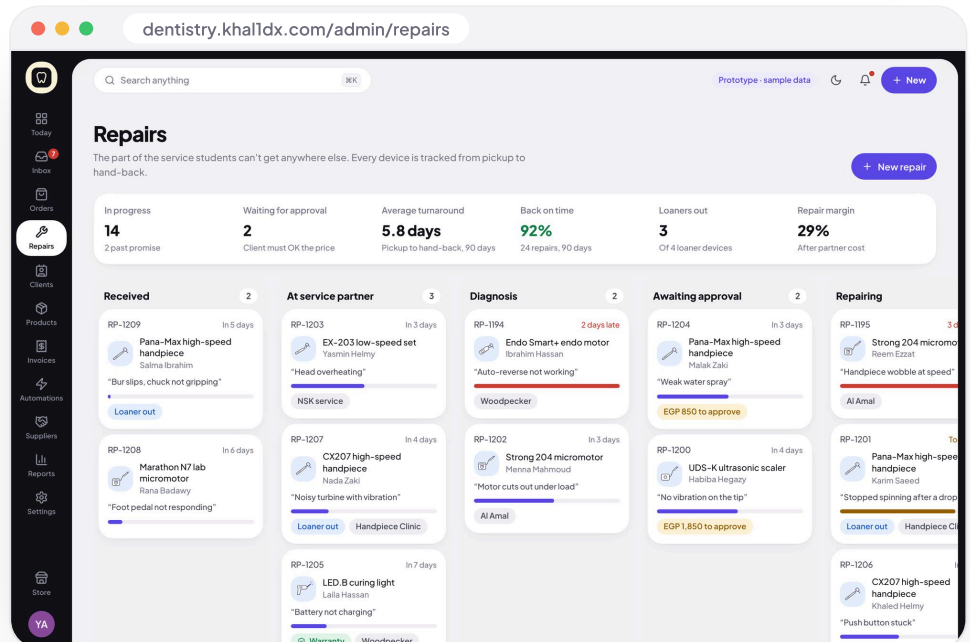

Repairs

Repairs, start to finish

Your best service, now visible to students.

- ✓ Pickup, service centre, approval, return
- ✓ Students approve the price first
- ✓ Loaner devices tracked

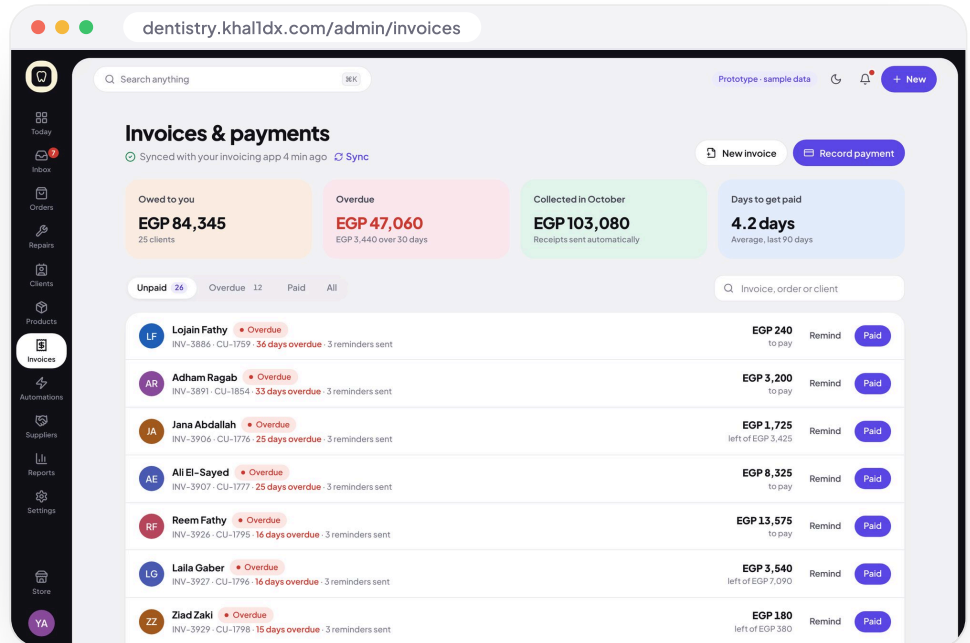

Money

Invoices and payments

Know who owes what, without chasing.

- ✓ An invoice for every order, automatically
- ✓ Reminders on the due date, then +7 and +14 days
- ✓ Works with your current invoicing app

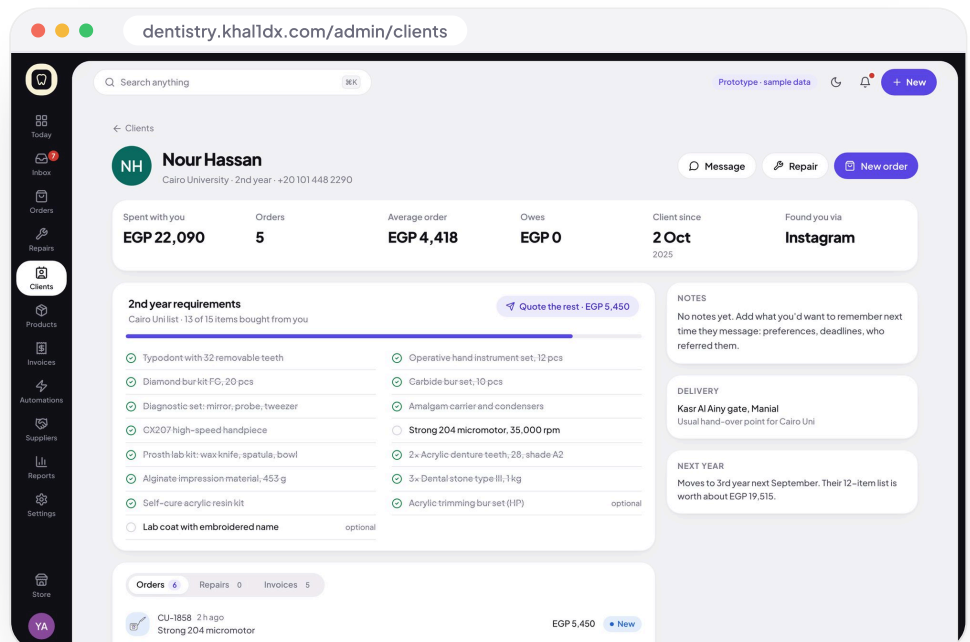

Clients

Know every student

Their history and what they still need.

- ✓ What they bought and what they owe
- ✓ What's left on their year's list
- ✓ Next year's list, ready to quote

The online shop

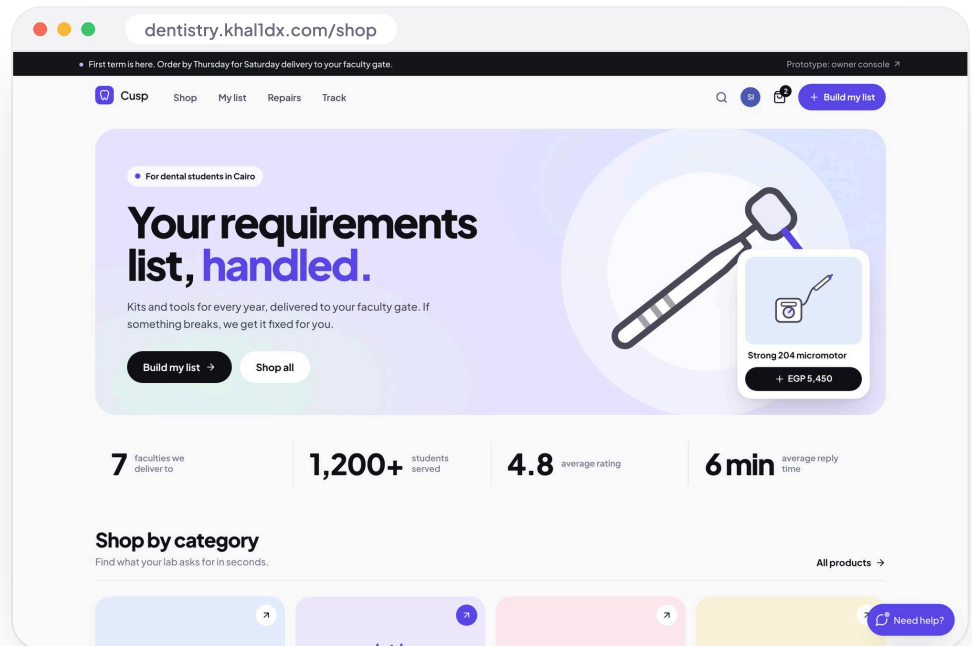

Open 24/7, so students can order while you sleep.

Shop

Built for dental students

Shop by year, category or ready-made kit.

- ✓ Prices update the moment you change them
- ✓ Hot picks for each year
- ✓ Orders land straight in your panel

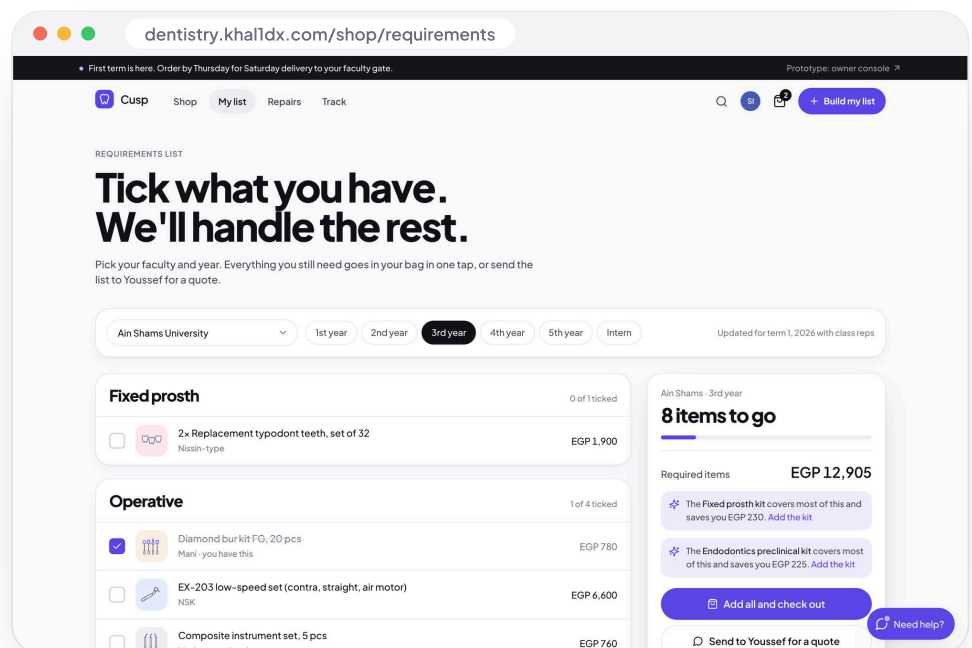

Requirements

Tick what you have. We'll handle the rest.

Students pick their faculty and year and see the full list.

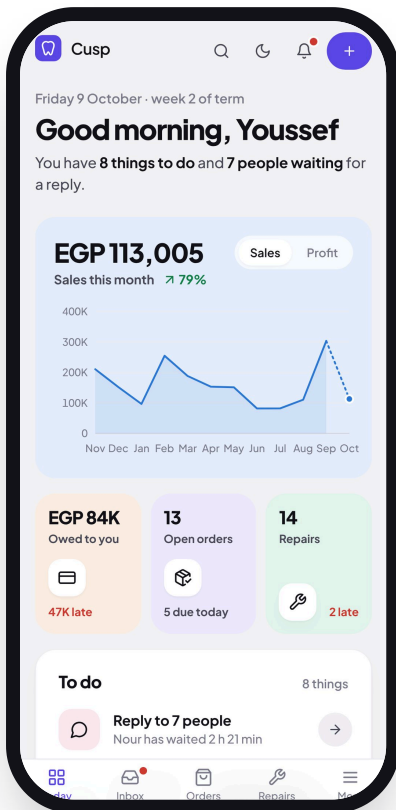

- ✓ Everything missing goes in the bag in one tap
- ✓ Or send the list to you for a quote
- ✓ Kits save them money

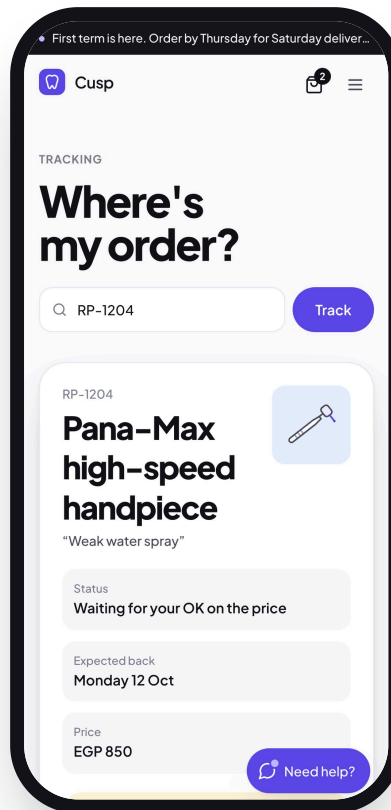

ON ANY PHONE

Hot picks and kits

Something broke? We fix it. You keep studying.

We deal with the service centre, chase them, and keep you updated. No other supplier does this.

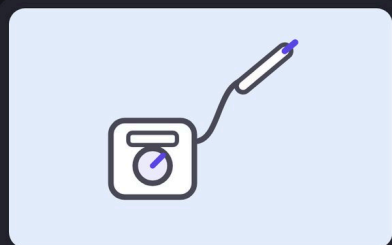

We pick it up

From your faculty gate, the same day you message us.

You get a loaner

So you never miss a practical while it's away.

You OK the price

Nothing is repaired until you say yes. Then it comes back tested.

THE PLAN

Live in about two months

Built in steps, so you start saving time from the first month.

1

Weeks 1–3

Control panel

Clients, orders, repairs and invoices in one place. WhatsApp in a shared inbox.

2

Weeks 4–6

Online shop

Shop by year, requirements lists, checkout and tracking pages.

3

Weeks 7–8

Automations

Status messages, payment reminders, broadcasts and reports.

4

Later

Growing

A helper account, card payments, Arabic, group orders for class reps.

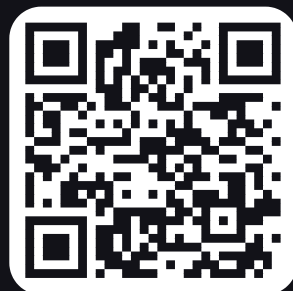

What we need from you

- ✓ A 30-minute call to walk through your day
- ✓ Your price list and product photos
- ✓ Your WhatsApp Business number
- ✓ Access to your invoicing app, or an export
